In buying at an auction sale of property that is intrinsically splendid you cannot make a mistake, especially if there be at the time a low state of the market, which is just the case at present. The sale opens up a new residence place of great beauty, which is now reached by one railroad, and is soon to be reached by a second. It must and will increase one railroad, and is soon to be reached by a second. It must and will increase in value with the march of improvements. When the "Old Fair Ground Property" in Wheeling was offered for sale, the people were told by advertisements that they had a rare chance to make money by purchasing. It was true. What is here said as to the opportunity next Saturday is just as true.
